

# ENVIRONMENTAL SCIENCE EDUCATOR

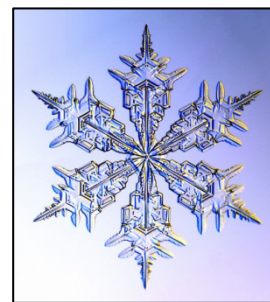

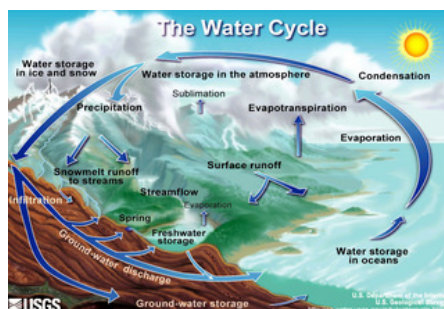

My Name is  
**Dave Eiriksson**  
and I am a  
**Hydrologist**

As a Boise State University graduate student and National Science Foundation GK-12 fellow, I am here to bring fun and **hands-on science** to the **COMMUNITY** and your **CLASSROOM!**

## RESEARCH INTEREST AND SPECIALIZATIONS

- **Watershed Hydrology:** I am primarily interested in studying how the different components of the water cycle move through the landscape and interact with the natural environment.
- **Snow Hydrology:** My research investigates the complex pathways that water follows through the snowpack during rain-on-snow and spring melt.

Please **CALL** or **EMAIL** to schedule a **FREE** class!
