

Science Educator Emerald Shirley

As a **geologist** I am interested in:

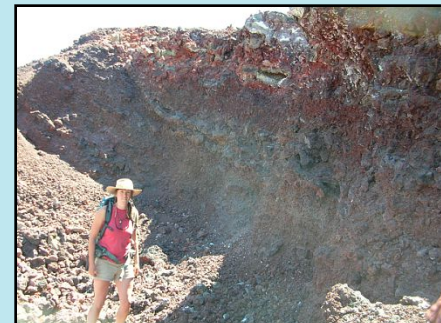

- The formation of earth and the continents
- The geology of Idaho and specifically the Snake River Plain
- Volcanoes
- Caves
- How chemistry can be used to better understand rocks

As a GK-12 Fellow I can bring science to your students in new and exciting ways for **FREE!**

Hands-On and Experiential Lessons:
experiments, demonstrations, lessons, field trips, and much more!

All community members welcome to schedule lessons:
Clubs,
Public/Private/Alternative/Home Schools, Boy/Girl Scouts, and Community Events
